

Touchless Exit Button

WAA-EHM-EPB

WAA-EHM-EPB with its proximity technology eliminates the need of pushing a button. Contact is made when a hand is brought to the unit. This touchless Exit Button also eliminates the need for a motion sensor which could have the door opened when some walks across its reading range. The unit is ideal for hospitals, industrial and commercial application.

Description

This release button product has advanced touchpad features for wide compatibility with different controller types.
